Our mailing list application currently requires subscribers to double opt-in before they are subscribed to any of our mailing lists. This means that you or someone using your e-mail address has requested to be added to our mailing list, at which time our system sent a confirmation e-mail that was confirmed. If you did not confirm the subscription confirmation yourself, you can unsubscribe at any given time by clicking in the unsubscribe link at the bottom of each newsletter. Details about this transaction may be available upon request by e-mailing an administrator, to do so please [click here](#) .
